

Sign Up for CodeRed Telephone/Text Weather Warnings

Lenawee County residents may sign up for weather warnings by telephone text messages. The CodeRed system is posted on the website of the Lenawee County Emergency Management Department:

<http://www.lenawee.mi.us/departments/emergency-management>

(Click on the link above to access this site and register for this service.)

Under the CodeRed logo is a "click here" button that will bring up a registration window. The system will send text messages of tornado, severe thunderstorm and flood warnings issued by the National Weather Service. This service is provided to county residents and businesses by a federal grant from the Department of Homeland Security. (Note: Tracfone is not a supported cell phone provider for the CodeRed system.)
